

Quality Flexible Metal Ducts

# PBreeze Silver Jacket Insulated

## UL Listed and Labeled Insulated Class 1 Flexible Aluminum Air Duct.

### PRODUCT DESCRIPTION

PBreeze is manufactured in 8ft lengths with your choice of one end crimped or with an aluminum coupling. The crimped end is reinforced and readily accepts screws. This duct should be considered for the better home for its superior efficiency and longevity. It is very durable and can be cleaned many times. It works well for fresh air makeup because of its superior positive and negative pressure strength.

Professionals should also consider using our new Copper product.

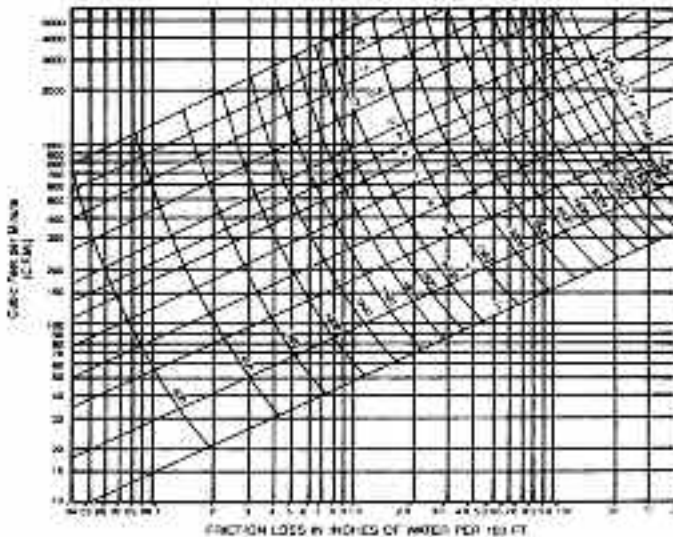

### AVAILABILITY

#### Diameters available:

4", 5", 6", 7", 8", 9", 10", 12", 14", 16", 18", 20"

The product is delivered at its full manufactured length of 8 feet. We do not compress our duct when we ship it as we feel it compromises the R value of the insulation..

Aluminum Flexible Duct

Polar Air Supply is continuously improving design, product, and manufacturing processes. Accordingly, all specifications are subject to change without notice. Polar Air Supply accepts no liability for the results of such changes.

### PERFORMANCE DATA

Maximum Positive and Negative Pressures  
Sizes 4" to 10" Diameter 12" W.C.  
Sizes 12" to 24" 8" W.C. Maximum  
Velocity 5000 FPM  
Operating Temperature -100F to +250F

Flame spread is less than 25 and the smoke developed of less than 50. This duct meets the requirements of numerous city and government standards.

Thermal Value: The duct is tested to R6 and bears the UL adjunct marking linking it to the ADC Thermal Certification Mark. Other R values are available on request.

This duct is described in UL File MH29962

Meets UL 181 Class 1 requirements.
