

Quality Flexible Metal Ducts

CUFlex Silver Jacket Insulated

PRODUCT DESCRIPTION

This product has a bonded layer of **copper** on the inside. The copper suppresses the growth of mold and mildew on the duct surface. The duct is provided depending on your preference with a crimp or a coupling.

Copper duct is perfect for school, hospitals, laboratories, and nursing homes. This product is also good for fresh air makeup, where warm and humid air is being brought into the building.

AVAILABILITY

Diameters available

5", 6", 7", 8", 9", 10", 12", 14", 16", 18", 20".

The product is delivered in 2' x 2' x 8' feet boxes and is not compressed. We feel that if you compress the duct it compromises the R value of the insulation.

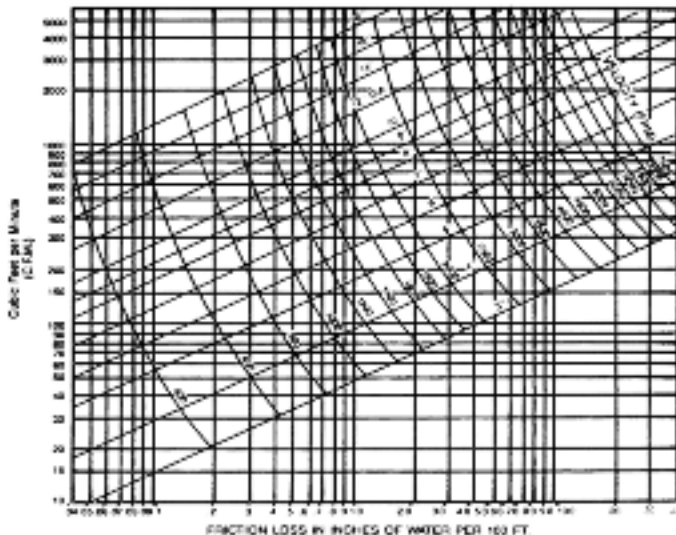

PERFORMANCE DATA

Maximum Positive and Negative Pressures
 Sizes 4" to 10" Diameter 12" W.C.
 Sizes 12" to 24" 8" W.C. Maximum
 Velocity 5000 FPM
 Operating Temperature -100F to +250F

Flame spread is less than 25 and the smoke developed of less than 50. This duct meets the requirements of numerous city and government standards.

Thermal Value: The duct is tested to R6.

Aluminum Flexible Duct
